

PDF POSITION AVAILABLE IMMEDIATELY

We are looking for two PDFs with expertise in synthesis (polymers or small molecules) to work on organic rubbers; experience with sulfur chemistry or organic rubber curing would be an asset. Candidates must have excellent synthetic hands, ability to work independently within a team, and generate and write up publishable/patentable work for our industrial sponsors. If you are an enthusiastic person interested in industrial applications with a demonstrated track record (publications), please send your CV including addresses for 3 referees to mabrook@mcmaster.ca (www.chemistry.mcmaster.ca/silicone). This advertisement is directed, in the first instance, to **Canadian citizens and permanent residents of Canada, and candidates who have completed their PhD within the last 3 years.**
